FORESTS IN FLAMES

The Losses Around Sandwich Will Run into the Thousands.

CRANBERRY BOGS PROBABLY RUINED

Great Destruction in the Adirondacks—Upwards of Thirty Fires Raging and Many Costly Cottages and Summer Hotels in Danger.

Sandwich, Mass., May 20.—The terrible forest fire which devastated such a large amount of property in and around Sandwich only a month ago, was at the time considered the worst ever heard of on the cape, but the Tremont conflagration which started at Kelly's saw mill Monday afternoon has surpassed even that terrible fire in the amount of damage done to property. Starting at the above point, it was driven by a northwest wind at a terrific rate in the direction of Parker's mills and then toward White Island pond and Half Way pond, the most valuable cranberry land in the world at present. It has covered an area of land more than twenty miles long and from three to six miles in width, and totally destroyed an immense amount of valuable woodland. The loss cannot be estimated with any degree of accuracy to-day, as the men sent into the cranberry district to flood the bogs have not yet returned and it is feared that they have had hard work to escape the fury of the flames with their lives. The big trees and thick underbrush have had no rain to moisten them for months and have burned like kindling. No reports have yet been received of any lives lost. A number of dwellings have been destroyed. The loss to cranberry bogs alone may reach hundreds of thousands of dollars and this would mean want to many homes which are wholly dependent on the cranberry business for support. The thunder storm which came up last evening almost ended the disastrous conflagration.

Lancaster's Fire Out.

Clinton, Mass., May 20.—The extensive forest fire which commenced Monday morning and raged in the vicinity of Spectacle pond is now about out. The Lancaster fire department got it under control after it had destroyed the houses, barns, henry, etc., on the Samuel Ruggs place. Between 2,000 and 3,000 acres of woodland was burned over, including a large amount of valuable spruce land. The loss will be in the thousands. It was the biggest fire that Lancaster ever experienced and in fighting the flames several hundred gave their services.

Still Burning at Calais, Me.

Calais, Me., May 20.—There was some sprinkling of rain last night, but the forest fires reported from here are still burning and the damage will be heavy.

FIRES IN ADIRONDACKS.

The flames spreading rapidly and much valuable property is in danger.

Gouverneur, N. Y., May 20.—Forest fires are raging to an alarming extent along the edge of the Adirondacks. At night the southern sky is aglow and upwards of thirty fires are reported. The fires have not only cleared the ground but have burned down into the musk to a depth of three feet in some places, and are likely to break out again at most any time during the summer. In some of the burning districts there has been a general call for men at \$2 per day to fight the fires, and employment would be given to many more than can be secured. The wind was terrific yesterday, and swept the fires through the woods to a considerable distance. The worst fire reported is near Oskegetie, three miles from Star Lake, and unless it is checked is threatens to reach that popular summer resort and fears are entertained for many cottages and the costly hotels there. Several residences have already been burned.

German Catholic Congress.

Pittsburg, May 20.—The open meeting of the German Catholic congress of Pennsylvania, held in Carnegie hall last evening, was largely attended. Letters from Cardinals Gibbons and Satolli, conveying blessings and good wishes were read. Resolutions setting forth the aims and objects of the Catholic congress were unanimously adopted. The "Te Deum" closed the exercises. After mass this morning a closing business session was held and at 2 o'clock this afternoon the delegates will be banqueted.

Believes Cleveland Will Be the Nominee.

Niagara Falls, N. Y., May 20.—Hon. W. Cary Ely, democratic state committeeman for this district, who has just returned from Washington, says that he believes that President Cleveland will be the democratic nominee for president and will be elected. At the time of the Cleveland-Hill factional fight Mr. Ely was the Hill leader in this district.

Schofield Discharged from Custody.

New York, May 20.—William Schofield, 55 years old, the Armonk hotel keeper, who was arrested on the 16th inst. on a charge of having murdered his wife, has been discharged, there having been no evidence to implicate him.

THE NEW METHODIST BISHOPS.

Drs. McCabe and Cranston Both Natives of Athens, Ohio.

Cleveland, May 20.—Rev. Dr. C. C. McCabe, who was yesterday afternoon elected on the fifteenth ballot a member of the board of bishops by the Methodist Episcopal general conference, was born in Athens, O., Oct. 11, 1826. His alma mater is the Ohio Wesleyan university. In 1860 he joined the Ohio conference. At the breaking out of the war he was made chaplain of the 122d Ohio volunteer infantry and went with his regiment to Virginia. At the battle of Winchester, in June, 1862, while caring for the wounded, he was taken prisoner and sent to Libby prison. Before the war closed he was asked for by the Christian commission, and made the tour of the great cities of the republic pleading for that great cause. In 1865 he was stationed at Portsmouth, O. In 1863 the board of church extension called him into their service. For sixteen years he gave his time and strength to this work, and during that time nearly 5,000 houses of worship were aided into existence by the board. In 1884 the general conference elected him missionary secretary, in which position he did most effective work. In 1888 he was elected senior secretary of the missionary society. Rev. Dr. Earl Cranston, who was also elected a bishop, is also a native of Athens, O., and a classical graduate of the Ohio Wesleyan university. He had an honorable service in the union army and for twenty-one years labored in the itinerant ministry, six years of which period he gave to frontier work in the Rocky mountains before his election to the agency of the Cincinnati Methodist publishing house.

New York—Drought serious, especially to grass; spring grains generally growing nicely. New Jersey—In middle and northern counties drought; in remaining counties copious showers have greatly improved all growing crops. Pennsylvania—Timely showers in some sections, but more badly needed; crops at a standstill.

YALE FLAG BURNED.

New Haven Officials Say That Only Old Glory Can Float over the Green.

New Haven, Conn., May 20.—The Yale flag was burned yesterday afternoon by order of the city authorities. At daybreak a huge banner inscribed Yale '98 was found floating from the flagstaff on the green. It had been placed there by the Yale scientific freshmen and a guard of policemen was stationed to see that it was not disturbed by sophomores. A fireman scaled the flagstaff and cut down the flag. It was burned by City Auditor Brown, who said: "Only the American flag can float from that mast."

TO BE CREMATED TO-DAY.

New York's Coroner Satisfied That the Colonnade Hotel Suicide Was Mrs. Hill.

New York, May 20.—The body of "Mrs. Everett," the Colonnade hotel suicide, will be cremated to-day, the coroner being satisfied that she was Mrs. Hill, and he therefore turned the remains over to Mr. Hill, father of the woman's husband. Congressman Pence and Mr. Hoard made affidavits as to the identity of the body. Lawyer Hill received a cablegram from his son, the husband of the suicide, saying: "Always desired cremation. Please have that done. Am writing to you to-day."

OUTLOOK BRIGHTER

Financial Affairs of the Presbyterian Mission Boards.

NOT ON THE VERGE OF BANKRUPTCY

Debts of the Home and Foreign Boards—Passed over to the Million-Dollar Fund Committee—Banks Willing To Advance Loans.

New York, May 20.—Detail statements of the financial affairs of the Presbyterian boards of home and foreign missions have just been given out by the treasurers of the two institutions. These statements come properly before the general assembly which meets at Saratoga to-morrow, but their publication is made to-day because of the widespread interest created by the efforts of the Memorial Fund committee to raise a million dollars to lift the back indebtedness of the boards. Last year the foreign board reported a debt of \$174,770.54, while the debt of the home board was more than twice that sum, viz: \$364,550.65. Added to this were debts of other boards, making a total deficit in the treasuries of the church boards of charities of \$699,000. Dr. Robert, in speaking of the home board's debt, stated that the contributions to the treasury had fallen off so materially as to cripple the board in its work of the year. He declared that it was impossible to borrow another cent to meet the wants of the board. The idea created by this statement in the public mind was that the two great charity boards of the Presbyterian boards were practically bankrupt. This idea was strengthened by the criticisms of the action of the boards in erecting an office building at Fifth avenue and Twentieth street, upon which a great mortgage was placed and a great charge incurred for interest and taxes paid and rentals lost.

Brighter View of the Case.

The statement given out to-day brightens this view of the case considerably. At the end of the year the treasurers of the boards wrote off their deficits, passed their debts over to the million-dollar-fund committee, and started the year 1896 with clean accounts. The estimated expenses of the new year were greatly reduced and the boards and secretaries started in to meet the conditions with hope and spirit. They moved into the new building, which was completed last year, and made urgent calls upon the churches for help. At the same time the million-dollar-committee made a great effort to gather in enough money to clear off the burden of back debts which rested upon the resources and property of the boards. A big meeting at Carnegie hall, at which President Cleveland presided, was arranged, and similar efforts in other cities were made. The result is that little more than one-third (\$250,000) of the sum set before the million-dollar-fund committee has been raised. Of this sum \$92,357.35 was passed to credit of the foreign board's deficit, leaving the sum to be carried as back debt by that board \$76,770.46. The home board having a larger debt received a large portion of the million-dollar fund, or \$199,750.10. Other contributions reduced this back debt to the sum of \$169,509.51. These two sums of back debt will be reduced by further payments of \$25,000 and \$50,000 in round numbers respectively, but that will come in next year's accounts. They stand to-day as stated: back debt for the two boards about a quarter of a million dollars.

Foreign Board's Receipts.

The foreign board's receipts for the year ending April 31, 1896, reach the sum of \$885,391.78, a gain of \$10,632.41 over last year's receipts for the same period. The reduced expenditures of the year enabled the treasurer of the board to close his books with a surplus of \$30,335.32, which, subtracted from the back debt, reduces that sum below \$50,000 nominally and \$25,000 actually. In this connection Treasurer Bullis states "that there never has been a time when the pay of a missionary, charges for transportation or other debts of the board has been delayed five minutes by the officers. Nor has there been a time in the history of the board when it was not possible for the treasury to avail itself of credit with the New York banks to the extent of an extra \$100,000 if that sum was required. Our bills at the end of the earth are received and cashed as readily as those of the best Wall street bankers."

His Remains Found in the Ruins.

Watertown, N. Y., May 20.—The remains of Martin Cheeseman, who perished while removing goods from a burning house at Gouverneur yesterday, were found in the ruins of the building several hours later. He was 27 years old and leaves a wife and five children.

Mr. Vernon Won over by Democrats.

Mt. Vernon, N. Y., May 20.—The municipal election in this city yesterday resulted in a victory for the democrats, who elected their entire ticket, reversing the normal republican majority of 150. The victory for the democrats is ascribed to the Raines law and local issues.

STARTING A NAVY

Cubans Believed To Be in Search of a Gunboat.

OFFER MADE FOR A PILOT STEAMER

The City of Richmond, Now Being Overhauled at Baltimore, Probably Another Fubuster—Spanish General Vienna Dies of Yellow Fever.

Baltimore, May 20.—Capt. John Hebb, president of the Maryland Pilots' association, has been approached by a person interested in Cuban affairs with an offer for the association's steamer Pilot. It is suspected the Cuban revolutionary party would like to get her to fit out as a gunboat, for which purpose she is admirably suited. She is practically a small ocean steamship, roomy and speedy. By plating her with armor she could be easily converted into a formidable gunboat. The Pilots' association will sell her if enough money is offered for her. The steamer City of Richmond, now being overhauled here for alleged freight business among the Florida keys, is another vessel which is under suspicion. It would not surprise many if some morning soon it is found that she has slipped off during the night for the "Florida freight business." Considerable anxiety is felt here for the Baltimore steamship Laurada, which sailed over a week ago from New York with two young Baltimore society men aboard bound for Cuba to aid the insurgents.

In Memory of Jose Marti.

New York, May 20.—The council of revolutionary clubs held a public meeting last night in Chickering hall in memory of the death of Jose Marti, the Cuban patriot, who a year ago yesterday was killed by the Spaniards at Dos Rios. The hall was well filled with Cuban patriots and sympathizers with the struggle for liberty. There were many pretty dark-eyed girls in the audience who heartily applauded every allusion made to the memory of the dead patriot. The addresses were in Spanish.

Gen. Vienna Dies with Yellow Fever.

Havana, May 20.—Gen. Vienna was attacked by yellow fever a few days ago, and despite every effort sank rapidly and died last night.

BAPTIST CONVENTION.

Over 1,000 Visitors at Asbury Park To Take Part in the Anniversaries.

Asbury Park, N. J., May 20.—Something over a thousand visitors are here to take part in the Baptist anniversaries, which begin to-day and last a week. Two thousand others are expected before to-morrow. The new committee rooms which Senator Bradley has constructed under the Auditorium were thronged last evening. The local reception committee had its hands full and twenty young ladies were kept busy enrolling names of delegates and visitors. The American Baptist Publication society convention was called to order by President Crozer at 10 o'clock this morning. There will be reports of committees and other routine work and an address on "Denominational Literature." Young people's hour and "Sunday School Work" will be the features of the afternoon session. In the evening the Rev. James Larsen of Michigan, Frank D. Hall of North Dakota and Rev. S. N. Vass of Georgia, will be the speakers. The Publication society will give way to the American Baptist Missionary union on Friday and reports and discussions on Missions and mission work at home and abroad will continue until Monday, when the American Baptist Educational society will celebrate its eighth anniversary with a series of meetings extending over two days.

Confirmed, Then Reconsidered.

Washington, May 20.—The senate in executive session last evening confirmed the nomination of Dominic I. Murphy to be commissioner of pensions and then reconsidered its action, because of opposition to the nomination of Gen. Dana to be first commissioner of pensions. There is no opposition to Mr. Murphy and his nomination will soon be confirmed.

Concession to Americans in Corea.

Washington, May 20.—John B. Sill, United States minister to Corea, has reported to the state department that a concession to build and operate a railroad between Seoul, the capital, and Chemulpo, its seaport, has been granted to an American syndicate. Mr. Sill says the Japanese government acted friendly towards Americans during the negotiations.

Punishments in the Navy.

Washington, May 20.—After careful examination the president has approved the report of a naval board appointed to prepare a code of uniform punishment for naval offenses, and hereafter the navy will enjoy with the army the advantages of uniformity in the sentences that may be imposed by court-martial for offenses of a similar character.

Bismarck's Famous Hound Dead.

Friedrichsruhe, May 20.—Prince Bismarck's famous hound Tyras II. died yesterday from old age.

AFFAIRS BEFORE CONGRESS.

Immigration Bill in the House—Nothing Important in the Senate.

Washington, May 20.—The house is again to-day considering the several bills reported from the committee on immigration looking to the imposing of additional restrictions upon foreigners desiring to settle in this country, but it is not probable, from present indications, that any of them will be passed. Speeches were made by Messrs. Morse, rep., Mass., in favor of the bill imposing an educational test; W. A. Stone, rep., Pa., in favor of the bill requiring consular inspection at the port of departure; and Buck, dem., La., in opposition to any additional restrictions whatever. The house has confirmed the right of W. C. Owens, dem., to the seat he occupies as a representative from the seventh district of Kentucky, which had been contested by George Denny, rep. The message of the president vetoing the bill to pension Caroline D. Mowatt was laid before the house and referred to the committee on invalid pensions. In his veto message the president said: "If she is to be again pensioned because her second husband does not survive her, the transaction has more the complexion of an adjustment of a governmental insurance on the life of the second husband than the allowance of a pension on just and reasonable grounds." There is nothing of general importance before the senate to-day. Only two general appropriation bills remain to be acted upon—the fortification and the deficiency bills—and one of these may be taken up late this afternoon.

VETOED BY GOV. GRIGGS.

Sixty-nine Bills Passed by the Last Legislature Killed.

Trenton, May 20.—Gov. Griggs has filed in the state library sixty-nine bills which were passed by the last legislature. This action is of the same effect as a veto and the bills are dead. Among them are: Committing the state to an appropriation of \$270,000 for an armory at Newark; providing for the establishment of a colony for epileptics; prohibiting the sale or gift of cigarettes to minors; providing for an asylum for the blind at Englishtown; Wilder's hand-picked huckleberry bill; Voorhees' nationalization bill; Sharp's history bill; providing that honorably discharged veterans should be given preference in the matter of employment on public works; requiring non-residents to take out licenses for hunting game in this state.

Negotiations for a Steamer To Conduct Peary to Greenland.

St. Johns, N. F., May 20.—Negotiations are being conducted here by Capt. John Bartlett, commander of the arctic steamer Kite last summer, to produce a steamer to take Lieut. Peary, the famous explorer, north next month on an expedition to secure the immense iron meteorite lying near Cape York, Melville bay. Lieut. Peary tried to bring the meteorite home last year, but did not have apparatus strong enough. He will take a complete outfit this time. The project for another expedition under the auspices of the University of Pennsylvania is believed to have collapsed.

MOWATT PENSION BILL VETO.

Congressman Sulloway Would Put the President on Short Rations.

Washington, May 20.—Caroline D. Mowatt, the beneficiary of the pension bill vetoed yesterday by the president, is a constituent of Congressman Sulloway, and resides at Manchester, N. H. The congressman has sent her the following telegram: "I regret to inform you that President Cleveland has vetoed the bill giving you a pension. In a Christian spirit, and with a desire to create within him a spark of patriotism, I wish for the remainder of his life he might receive such treatment and rations as our soldiers had at Andersonville."

PRAISES THE TURK

Clara Barton Speaks in High Terms of the Sultan and Porte.

HAVE AIDED IN THE RELIEF WORK

All Her Requests Granted and Suggestions Favorably Acted Upon—Government Offers To Supply Seed to the People in Need of It.

Washington, May 20.—Secretary Olney has received a letter from Miss Clara Barton, in which, referring to rumors that she was prohibited from distributing relief in Asia Minor except under direction and control of the Turkish authorities and from lists of persons furnished by Turkish officials, she emphatically denies that any members or officials of the Turkish government have ever tried in any way to direct or control her distributions. She adds: "Sir Philip Currie has done and is doing splendid work in facilitating the labors and distributions of the heroic missionaries; the Anglo-American operations, through consuls and missionaries, and in a general way our own efforts. But our greatest successes are due to the untiring efforts and sound judgment of our legation officers, through whom we are working, and also for the reason that both palace and porte have confidence in the singleness of our purpose and the integrity of our personnel. As the Turkish government is thoroughly convinced that there is no political significance attached to our visit; that we have no sectarian interests to serve and certainly no radical prejudices, there have been no requests which they have not favorably acted upon. Our every desire has received respectful attention, careful consideration and cordial concession."

Kindly Interest of the Government.

"The latest evidence of kindly interest in our work, shown at both palace and porte, has just been brought to us by Mr. Garigou, first dramogian of our legation, and is as follows: 'If our men find that the people are in need of seed for planting, they are to apply to the governor of the place for it. If he cannot furnish it they are to telegraph us, and upon our request the porte will at once issue the necessary orders for the seed. In going from place to place, if our men find people who are anxious to plant their fields but are afraid to leave their homes for that purpose, they are to inform us of such by telegraph, and upon our request ample protection will be ordered by the porte.'"

London, May 20.—A manifesto, signed by Henry Labouchere and eighteen other radical members of the house of commons, has been issued. No Pardon for McKane.

Albany, May 20.—The statement was made at the executive chamber last evening that there were no grounds for the revival of the report that Gov. Morton was giving serious consideration to the pending applications for the pardon of John Y. McKane, who is in Sing Sing prison. Nothing has developed of late in the McKane case to warrant the belief that it is likely to receive executive attention.

Indicted for Diamond Smuggling.

Philadelphia, May 20.—The grand jury in the United States district court has brought in true bills of indictment against Herman Keck, a diamond merchant of Cincinnati. Capt. Frank Loewitz of the American line steamer Rheinland and "other persons to the grand jury unknown," on the charge of attempting to smuggle 563 diamonds into this port.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

SOME PEOPLE FROM INDIA.

Wierd and Uncanny Dancers Together with Charming Sacred Dancers.

Descriptions are scarce of the Derivada or dancing girls of the Dura, but here is one that gives as much information as any. Their dresses consist of robes of spangled silks, only partly covering their person, and confined at the waist with a zone of solid gold, three inches wide and studded with pearls. In addition they have large hoop earrings, nose ornaments hanging down to their mouths, with their fingers, toe, arms and ankles covered with rings and bangles. Their music is extracted from drums, cymbals, pipes and shells. These dainty girls are with the Barnum & Bailey Greatest Show on Earth this season and take a part in the entertainment of Oriental India. There are many other strange people at it, among them tiger dancers, devil mask dancers, sacred silver dancers, Cotia dwarf Saraband dancers, dainty Cinghalese dancers, Kandian dancers, trim and quaint dancing girls from Madras, a lot of members of the Hyderabad Theatrical Company, together with East India musicians, jugglers, fakirs, priests and mystifiers, all of whom give characteristic exhibitions illustrating the games, sports, pastimes and occupations of the inhabitants of India. This part of the show is exhibited in the menagerie tent, and is separate from the performances in the three rings, on three stages and the race track, in which latter 100 acts of a startling and novel character are given. A dozen circus acts are simultaneously going on at various times, while there are two menageries, fifty cages of wild bears, Johanna, the gorilla, and a myriad other delights of all kinds to charm and bewilder everybody, young and old, from any and all of which much amusement and instruction can be had. All will be here on Thursday, May 28th, with the street parade of the living sovereigns, the horseless carriages and numerous other features in the morning.

ORIGIN OF A QUEER PHRASE.

Lawyers Have Expressions Not Understood by the Common Herd.

Among the many strange expressions used in the legal fraternity is that of "horse-shedding." It refers to the preliminary examinations of witnesses before putting them on the stand. There has been much discussion as to the origin of the term, but Congressman Grosvenor gives the following explanation, which certainly sounds reasonable: "In days gone by the Ohio courts held sessions at different county seats at certain periods known as court terms. To accommodate the large crowds of litigants and witnesses who would flock in from points for miles around the county seat when court was in session, the county authorities erected sheds near the courthouse, where the litigants and their witnesses could tie and feed their horses while they attended court, and these sheds became known as horse sheds."

"Now, owing to the limited space of the courtrooms, the lawyers who always traveled with the court, were unable to hold a private conversation with their clients and witnesses inside the walls, and so they used to take them under the horse sheds and there talk matters over with them. Among the attorneys who attended court at Chester, the county seat of Meigs county, on one occasion were Tom Ewing and Samuel F. Vinton. The court was ready to go on with the case in which the two noted attorneys were retained as opposing counsel, when it was discovered that Vinton was not present. The court looked carefully around and then asked: 'Where is Mr. Vinton?' 'I don't know, your honor,' said Ewing, rising to his feet, 'he is not here, but he is probably outside horse-shedding his witnesses.' This remark raised a general laugh, and thereafter the word horse-shedding a witness passed into popular parlance."—Washington Post.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, Constipation, Dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at McMonagle & Rogers' Drug Store.

A HOG ORCHESTRA.

The Singular Exhibition Arranged for the Pleasure of a King.

During the reign of Louis XI. of France there was attached to his court one Abbot De Baigrie, a man of considerable wit. The abbot was somewhat musically inclined, and delighted the court with inventions of odd musical instruments. One day the king, after having enjoyed a hearty laugh over one of these curious contrivances, and desiring to baffle this musical genius, commanded him to produce harmonious sounds from the cries of hogs. This seemed an impossibility to the king, and he prepared himself to enjoy the discomfiture of the abbot. Much to his surprise, however, the abbot readily agreed to produce them. All he required was a sum of money, upon the receipt of which he declared he would invent the most surprising thing ever heard in the way of musical atrocity.

He scoured the country and secured a large number of hogs, trying their voices as to pitch and quality, and finally, after having fully satisfied himself, he arranged the animals in a sort of pavilion richly decorated. The day of the trial arrived, and the king and his court entered the pavilion prepared for something, but greatly in doubt as to the success of the abbot with the hogs. However, there were the hogs, sure enough, and, much to the surprise and delight of the king, they began to cry harmoniously and in good tune, rendering an air that was fairly recognized. The abbot had arranged a series of stops that were connected with the hogs, and upon pulling one of them out caused a spike to prick the hog it connected with, making him squeal his note. The rest was easy, for by pulling out the different stops he produced the tune.—Philadelphia Press.

A Great Master Thief.

So long as Hind kept to the road his life was one long comedy. His wit and address were inexhaustible, and fortune never found him at a loss. He would avert suspicion with the tune of a psalm, as when, habited as a pious shepherd, he broke a traveler's head with his crook and deprived him of his horse. An early adventure was to force a pot-valiant person, who had drunk a cup too much at a wedding, into a rarely farcical situation. Hind, having robbed two gentlemen's servants of a round sum, went ambling along the road until he encountered a parson. "Sir," said he, "I am closely pursued by robbers. You, I dare swear, will not stand by and see me plundered." Before the parson could protest, he thrust a pistol into his hand and bade him fire it at the first corner, while he rode off to raise the county. Meanwhile the rifled travelers came up with the parson, who straightway, mistaking them for thieves, fired without effect, and then, riding forward, hung the pistol in the face of the nearest. Thus the parson of the parish was dragged before a magistrate, while Hind, before his dupe could furnish an explanation, had placed many a mile between himself and his adversaries.—Macmillan's Magazine.

How He Could Tell.

Some years ago, a man named Greenfield, living in New York state, killed his wife. He was convicted at the first trial, but the case was carried to the court of appeals, which reversed the findings of the lower court. Gov. Robinson then ordered a special rehearing to be held at Syracuse. Judge Daniels presided. When an examination of the jurors began, a curious circumstance occurred. One of the jurors declared that he had already prejudged the case. He was asked if he had read the printed accounts in the newspapers. He had not. Neither, he said, had he talked with anyone about it. He was accordingly excused. Judge Daniels, however, was not so easily satisfied. He sent the sheriff before the man left the courtroom to ascertain how he could reach a conclusion in a case when he had never read up on it or discussed it. "Why," he replied, "the lawyers made such darned fools of themselves examining the jurors that I knew the prisoner must be guilty."—San Francisco Argonaut.

A Retreat Open.

"We are thwarted," she gasped, falling into the arms of the leading juvenile. "My father!"

"What has he done?" demanded the youth, with an ominous intonation.

"He has hidden all of my wardrobe except 27 costumes!" she cried, her voice rising to a shriek.

Anybody at all conversant with the tendencies of the drama could see that an elopement was impossible. However, they could do a song and dance.—Detroit Tribune.

Impoverished

whether due to the inheritance of some scrofulous disorder, or caused by a depleted condition of the system, is the cause of much agony. A terrible complexion, foul eruptions, and loathsome ulcers are but outward symptoms—the sufferer should remember that all of the great organs of the body are likewise diseased, and the day cannot be long distant when death must surely ensue.

Bovine

when taken for this trouble, is a means of salvation. It creates new flesh tissue and pure red blood corpuscles, and by giving strength to the great vital centres of the body, it enables them to perform their functions naturally, and thus dispel the existing poisons by the natural channels. THE WAY OF THE TRANSCRESSOR.

An Unfortunate Woman Sent to Jail
for Thirty Days.

A woman giving her name as
Jeanie Lelghorn, but who has been
known to the police under other
names, chi flvas "Lady Tenderfoot,"
was sent to Goshen jail for thirty
days this morning, for disorderly
conduct.

For some time past many com-
plaints have been made to the police
about a gang of men who frequented
the lumber yards on Union street at
late hours during the night. Last
night Officer Wood noticed a number
of men going in and out of the lum-
ber yard and his investigation re-
sulted in the arrest of the woman.

He also secured half of a coat from
the back of a man for whom he made
a grab, but the other half and the man
disappeared in the darkness, be-
hind a pile of lumber.

Another young man was subse-
quently arrested, as having been one
of the gang, but he proved an alibi
and was discharged, not, however,
before he had given damaging testi-
mony against the woman.

The woman gave her age as thirty-
seven, too old to be sent to the Re-
formatory at Hudson.

The O. and W. ran an excursion
from Rockland on account of the
Midway Park opening, to-day, but
there were only seventeen passen-
gers. People are doubtless waiting
for the Barnum & Bailey show.

It is a fortunate day for a man
when he first discovers the value of
Ayer's Sarsaparilla as a blood-pur-
ifier. With this medicine, he knows
he has found a remedy upon which
he may rely, and that his life-long
malady is at last conquered. Has
cured others, will cure you.

A New Woman's Bicycle Club

A New Woman's Bicycle Club is
soon to be organized at Columbia
Park. It is expected that a mem-
bership of twenty-five will be obtained.
The members must pledge them-
selves to wear bloomer costumes
while on the park bicycle course
which has recently been completed
at very considerable expense.

The managers of the park are
erecting a club house for the exclu-
sive use of the members of the club.

Death from a Practical Joke.

While Fred Palmer was asleep in
the rear of a caber shop in Pough-
keepsie, Thursday morning, some of
his friends sewed a strip of cloth
around his ankle, running the thread
under the skin. On Friday his leg
began to swell, and yesterday he died
from blood poisoning, supposed to
have been caused by the dye of the
thread.

"Lord Willie" Returns to Newburgh

"Lord Willie" C. Utant, who posed
in Boston as the Mayor of New-
burgh and was treated with most
distinguished consideration, returned
to Newburgh, last night. He tele-
graphed asking for money to pay his fare
home, but no one put up the price of
a railroad ticket, so it is assumed
that he made a raise at the Hub.

Do not be induced to buy any
other if you have made up your mind
to take Hood's Sarsaparilla. Re-

have failed to help you. Take
Hood's Sarsaparilla faithfully and
you may reasonably expect to be
cured.

Don't Want Dogs in His Garden.
A resident of Prospect avenue, who
has a fine garden, would like to know
why his neighbors' dogs should not
be kept tied up, so that that they will
damage his garden. He has a dog
that he keeps tied up all the time
and thinks his neighbors ought to do
the same.

3,000 DEATHS A DAY.

Startling Statistics in Regard to

Consumption.

Some Idea Also of the Proportion of

Cures—Analysis of the Dread

Disease.

When we visit a factory where there

are the most delicate and most danger-

ous machines, we are amazed to notice

how indifferent the workmen are to

the danger about them. Saws and

knives work rapidly, and yet no one

seems to think of danger. Long associ-

ation with danger causes indifference

to it.

If the statement were made that

there was a contagious disease abroad

in the land which was killing people

at the rate of 3,000 a day in Europe,

thirty a day in New York State, and

nearly 100,000 in one year in the United

States, every one would be aroused

to action. Yet such a condition exists

to-day. Consumption is a contagious

disease, and the above figures concern-

ing it are taken from recent reports.

But we have become so familiar with

the disease in our midst, that we do

not fully understand its terrible na-

ture.

Yet it is surprising how many re-

cover from this disease. Even after the

germs of consumption cause serious

damage to the lungs, thousands

recover. As yet, no specific is known

for the disease. The treatment con-

sists in giving aid to the body in its

efforts to destroy the disease germs.

For two centuries, cod-liver oil has

occupied the first place in the list of

remedies. The next valuable remedies

are the hypophosphites. Some rely on

one alone, but as both are recognized

as of great value, we think it best to

combine them. Thus you are sure

of getting every help which the best

remedies known to medical science

can afford. In Scott's Emulsion of

Cod-liver Oil with Hypophosphites, the

oil is emulsified, that is the oil is

broken up into minute globules of fat.

The oil is digested and thus saves the

weakened body from doing this work.

What will Scott's Emulsion do for

those with weak lungs?

If taken before the germs of con-

sumption have secured a foothold in

the lungs, it will so invigorate and

nourish the body that the disease will

be successfully resisted. In this way

it prevents consumption. Even after the

lungs are diseased, the body emaci-

ated, and the health greatly affected

it will often enable the system to come

out victorious. And even in the last

stages of the disease, when all hope of

recovery has been abandoned, it less-

ens the severity of the attack, and

makes the last days more comforta-

ble. Scott's Emulsion brings hope and

health to the great majority, while it

brings comfort and relief to all.

Scott's Emulsion contains more pure

Norwegian Cod-liver Oil than any other

emulsion in the world, that will stand

the test of time as being a perfect in-

separable emulsion. Ask your doctor.

An adjourned meeting of the Board of Education, was held, last night, at the residence of President Higgins, and Messrs. Curwin, Buckley, Pomeroy, Hanford, Harding, Martin, Bowen and Superintendent Tuttle.

An application for teacher's position from Lillian Tyndall was read and placed on file.

A bill of H. H. Hunter for labor, for \$1.95 was audited.

BAD FOR THE ONION GROUNDS.

Damages to the Onion Crop by Wind and Grub.

"Dr. Spriggles" is the Newburgh Journal says: A gale of wind of cyclonic nature swept over the great Greycourt meadow, Sunday, and swept acres upon acres of the young onions clean out of their beds, and those not so handled had their tops snapped off as if they had been pipe stems. This gale of course did great damage. An onion grub has also been doing great injury to the crop. The grub is not new to the section, but this season it has done more harm to the growing crop than ever before. The grub is in appearance like the maggot to be found in putrid meats. The onion fields of Florida, this county, are also said to be suffering greatly from the grub.

A World's Fair Certificate.

A certificate of merit awarded to Peter Dillhoff of Winterton, for cheese manufactured by him and exhibited at the World's Fair is on exhibition in Dillhoff's window. Mr. Dillhoff manufactures a large quantity of cheese and his business is constantly growing and now aggregates many thousands of dollars annually.

IN ANCIENT GOSHEN.

A Tribute to the Late Mrs. Deniston—Personal Mention—The Bicycleists' Church.

From a Special Correspondent.

—The flowers on the altar in St. James' Church, A-cension Day, were the gift of the Sunday School children, and after the service, they were placed upon the grave of the late Mrs. Deniston, who, at one time, taught in the school.

—Mrs. Wilmet P. Thompson and daughters, who have been visiting friends in Elizabeth, New Jersey, have returned to their home in this village.

—The writer remembers to have read a story, intended for the young, concerning eight little pigs. The writer apologized for the rather egotistical conduct of his young heroes and heroines by remarking: "You see a pig thinks the whole world was made for pigs." While one would hesitate to compare the army of bicycleists to any thing so unsavory as pigs, it must be confessed there is a certain similarity in their ideas of the purpose for which this terrestrial ball was created. Listen to a party of them talking and you will hear them solemnly deploring the dry weather because it "makes the roads so dusty for wheeling." The damage being done to the country in general being as nothing to this. The magazines and newspapers are largely given over to them. No horseman could dwell more admiringly upon the superior points of his equine favorites than does the bicycle enthusiast upon those of his own individual wheel. All this, although diverting to those not interested, is harmless; but when it comes to a proposition that a movable church be constructed for the accommodation of wheelmen and women, it really seems as though they were carrying matters a bit too far. The writer saw such a proposition made, apparently in all seriousness, in a recent issue of a certain newspaper. The author of the article quoted a number of prominent wheelmen's clubs in New York as saying that, under the existing order of things, it was impossible to induce bicycleists to attend church, although many efforts had been made by ministers, who made reference in their sermons to matters that might interest them. This leaves something to the imagination as to the way in which this local coloring is introduced, but it might be a good idea for a minister with a scanty salary, and there are all too many such, to seek it out by crying the wares of some bicycle manufacturer in some such way as this: "I refer now, brethren, to that broad and easy road over which we travel as easily as though mounted upon a wheelman, that road over which an inferior wheel, like the Columbia or Remington or Victor, would run with considerable ease, and even a Maoy, \$64.98, trundle along with a certain freedom; but just so easily does it lead to destruction. Keep then rather to the straight and narrow way, though the pedaling be hard, our tires in danger of being punctured, and the bills be long and steep." But to return to the movable church. It is to be placed, on one Sunday, within easy wheeling distance of the city, say about fifteen miles distant, and on succeeding Sundays, lest the cyclist become weary of well doing in one place, it is to flit about to other pleasant spots in other favorable locations. It is true that when the shepherd of a apostle days went forth in search of his straying flock, he was liable to receive martyrdom at the hands of those who differed from him in opinion, but at least his sheep were not mounted on wheels, and he was not obliged to pursue them hampers by a church. It ought, in common justice, to be arranged so that a recovery or personage be attached to this roving place of worship, that the pastor and his family may have a summer outing. He may, in this way, be better enabled to perform his arduous duties.

A Blooming Grove Woman Divorced.

Mrs. Alice A. Chadwick, a daughter of Rev. Warren Hathaway, of Blooming Grove, has been granted a divorce on statutory grounds from Nathaniel S. Chadwick. The defendant is a salesman for a New York clock house put in no detour and the matter of attorney was arranged by his dealing his wife a small fruit farm on which she resides.

FOR THE HOUSEWIFE.

Hints Which if Remembered Will Not Come Amiss.

If a dish of cold water is kept in a cake box it will keep the cake fresh and moist. The water should be renewed every 24 hours.

In making a mustard plaster take a piece of lard and stir the dry mustard into the lard until it is a thick paste and will just spread. Spread on a piece of lawn and apply to the affected part. This will not blister.

The pretty little two-tined forks intended to be used for strawberries are now seen decorated with the berry enameled in the natural colors. The vine twists around and up the handle, and has both the blossom and the fruit upon it.

In polishing silver that has been laid away for a long while and is badly tarnished, it is a good plan to wet a soft cloth in sweet oil and then with a cleaning powder rub the silver until the dark places have disappeared. Then rub with the powder and a dry chamois skin before finishing with a polishing brush.

Kerosene oil added to the water with which mirrors, windows, or anything of glass is to be washed, will give a luster. A pint of water and three table-spoonfuls of oil will wash four large windows. First dust the windows carefully, then rub well with kerosene and water, wipe with a cloth, and polish with old newspaper.

Have you ever tried a hot pancake for an aching side or back? Mix flour and water together until you have a thick batter, and cook on a hot griddle with very little grease. Place it between thin muslin and apply to the aching place. A pancake applied to the base of the brain will often relieve a headache, and is recommended for congestion of the lungs.

Get out your last season's straw hat and try freshening and cleaning it at home with lemon. Remove the band and lay the hat on a flat surface to keep the brim in shape. Cut a lemon in two crosswise and rub the hat with it. Wipe the hat with a soft clean cloth, and if the dirt and stains have not all been removed, repeat the operation with a fresh piece of lemon. Allow the hat to dry thoroughly before it is worn in the sun.—Chicago Inter Ocean.

When your stomach begins to trouble you, it needs help. The help it needs, is to digest your food, and until it gets it, you won't have any peace. So much trouble is very distressing, very obstinate, very dangerous. Many of the most dangerous diseases begin with simple indigestion. The reason is that indigestion weakens the system and allows disease germs to attack it. The antidote is Saker Digestive Cordial, strengthening, nourishing, curative. It cures indigestion and renews strength and health. It does this by strengthening the stomach, by helping it to digest your food. It nourishes you. Saker Digestive Cordial is made of pure herbs, plants and wine, is perfectly harmless and will certainly cure all genuine stomach trouble. Sold by druggists, price 10 cents to \$1.00 per bottle.

Largest and Best Stock

HARNESS AND WAGONS IN THE COUNTY

The Reason Why

We are so busy with order for clothing is that we are saving every customer from \$6 to \$8 on every suit we make, while the workmanship is equal if not superior to any one's, as the BEST TAILORS IN THE CITY do our work. Suits to order from \$16.50 up. Pants to order from \$3.50 up.

HATS AND SHIRTS!

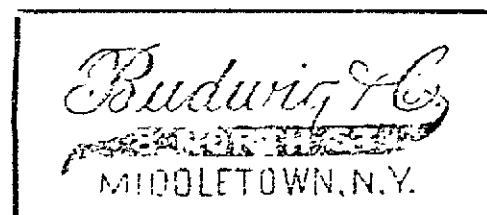

We show the largest assortment of Straw Hats and Summer Shirts at lower prices than all other dealers charge. Look us over and see for yourself.

Ready-Made CLOTHING!

We are making all the ready-made clothing we sell, and, therefore, save you the middleman's profit which is about \$1 on every \$10. This proves every clothier must pay to the manufacturer from whom he buys his clothing, as a payment for the risk, work and trouble of manufacturing. We do all this work ourselves and save this profit to the clothing buying public.

Men's All Wool Suits \$4.95. Children's Suits 88 and 98c., worth \$1.50.

For Boys' Knee Pants call for "BUDWIG'S OWN" double seat and double knees, patent waist band and hand fast buttons at 25c per pair. Boys' wash pants at 15c a pair. To buy clothing that has this guarantee, "all wool, will not fade and first-class work" look for this label.
